### **PEER SUPPORT NETWORK RECEIVES MAJOR DONATION**

**Boca Raton, FL** - Peer Support Network (PSN), a newly formed non-profit organization, recently received its first major donation from 4 Star Services, a plumbing and air conditioning company located in Fort Lauderdale. This donation is part of 4 Star's year-long campaign to raise awareness of worthwhile local charities. 4 Star Services has committed to donate \$1,000 each month to commendable charities.

Peer Support Network is honored to be the recipient of December's cash award. PSN founders, Cathy Hylinski, Mary McNulty and Shelly Rozenberg were all on hand for the check presentation. The three are extremely grateful for this generous donation and feel the money will help them to reach their goal of becoming a "go to" organization in the cancer community.

Peer Support Network was founded on the premise that peer support is essential to improving the quality of life, healing and recovery of those coping with cancer and together, peers gain hope, understanding, encouragement, inspiration and greater self-empowerment from those that have already embarked on this journey. PSN founders have 25 years combined non-profit management, community outreach and patient support experience with a national cancer organization. Recognizing the need and benefits of peer support, it is their personal goal to make a positive impact on all people affected by cancer.

For more information on Peer Support Network, please visit [www.peersupportnetwork.org](http://www.peersupportnetwork.org).

Peer Support Network is a 501(c)(3) non-profit organization providing Internet-based peer support services for newly diagnosed cancer patients, cancer survivors and their caregivers coping with the emotional and physical challenges of a cancer diagnosis. Its free, global network connects people impacted by cancer with others that have undergone similar experiences and is available to anyone seeking or offering support.
